About Us

Formerly known as *Black Data Processing Associates*, **National BDPA** was founded in 1975 and rebranded as **BDPA** to promote technical development and professional growth in underserved communities for those pursuing or entering information and communications technology (ICT) fields. Throughout 2016, National BDPA and local BDPA Chapters will continue their remarkable journeys with industry and local communities into our fifth decade.

Executive Summary

bdpatoday is a serial publication (**ISSN 1946-1429**) and has been published since 2007 by BDPA-DC and participating local BDPA Chapters. BDPA Chapter Communications Committees leverage local market tech trends, business intelligence, and tech-inclusion success stories within their respective geographical areas of coverage to publish locally branded vignettes, blogs, monthly newsletters, or quarterly publications.

bdpatoday is emailed to NBDPA members, NBDPA corporate sponsors and electronically delivered to BDPA Chapters and local BDPA Chapter Interest Groups (CIGs) as a benefit of sponsorship or membership. Print editions, special reprints, customized cover stories, and archived editions also are available for organizations via the publication's online Chapter-as-a-Service (CaaS) module.

bdpatoday offers advertising purchases in local BDPA Chapter media markets and other geographic regional areas. With targeted advertising, marketers select from various media, social networks, and outreach programs within National BDPA's portfolio from different geographic areas covered by NBDPA, NBDPA Regions, and participating BDPA Chapters.

Benefits

bdpatoday, **Popular Technology TV (PTTV)**, **BDPA iRadio Show**, and National BDPA **Groupsites** offer the following benefits directly from NBDPA and the BDPA Education and Technology Foundation (BETF) through each of our social and multimedia content channels.

- **Flexibility**—Easily create strategic, ICT industry awareness-building campaigns, while concurrently leveraging NBDPA chapters' universal targetability and economies of scale
- **Demographic Targeting**—Reach NBDPA's professional Cyber, IT, STEM, and STEM-IC (Intel/Cyber) professional networks that best allow you to reach niche audiences interested in your products, services, contracting, subcontracting, recent success stories, and ICT career opportunities
- **Geographic Targeting**—Reach NBDPA's executives, professionals, application developers, HSCC/ITSC Alumni, and college students by concentrating advertising and recruitment campaigns within areas you need to reach among potential Cyber or IT communities.

National BDPA (NBDPA) maintains one of the nation's best grass-roots next generation workforce (NGWF) development and technology-inclusion programs. Since 1975, NBDPA's achievements have remarkably remained on task and are emblematic of its tag line, "**Advancing technical careers from the classroom to the boardroom.**" Moreover, National BDPA's 40-year corporate performance and community outreach initiatives are measured to evaluate the efficiency of both our sponsors' and members' investments which continually yield year-over-year positive returns on investment (ROI) for industry, community colleges, HBCU/MI schools, and local community economic development programs.

National BDPA and Local BDPA Chapters provide:

- Affinity market awareness and branding during BDPA events with industry sponsors' products, services, white papers and career opportunities
- Information and communications technology (ICT) industry pipelines which own unique ICT industry relationships with IT and Cyber executives, entrepreneurs, and program managers.
- Qualified STEM and STEAM Interns with strong GPA's north of 3.2 as a direct result of BDPA's renowned **IT Showcase (ITSC)**, **Mobile App Showcase**, and National BDPA's **High School Computer Competition (HSCC)** programs.
