

2016 Annual Regional Innovation Summit

June 23-25, 2016 Washington, D.C.

innovation evolves once shared

bdpatoday.com

SiriusXM is committed to integrity, excellence, and diversity among its employees.

“To be as strong as possible, our employees need to reflect both the diversity of the work force at large as well as our own current and future subscriber base. Diversity is essential to ensure that a company represents and reaps the benefit of different voices, different experiences and different points of view. With diversity of thought, you lay the groundwork for the most vibrant collaboration and the greatest innovation.

Diversity is of particular importance to our Company. As the premier provider of audio content in this country, we have both the privilege and the obligation to provide content that is compelling to those subscribers that we have today and to those we want to have tomorrow. We need diverse voices in this Company to ensure that we know what is important to all of our potential listeners.

This is a Company where we want to value people’s differences and celebrate diversity. Diversity is not something that we can be passive about. Diversity must be actively pursued”.

SATELLITE RADIO Networking Reception & Studio Tour

Annual TECH & MEDIA Reception with BDPA
Thursday, June 23, 2016 6:00 pm to 8:30 pm

SiriusXM Satellite Radio Studios
1500 Eckington Place, NE
Washington, D.C. 20002

RSVP BDPADC.org

OVERVIEW

In 1975, BDPA, formerly known as *Black Data Processing Associates*, was co-founded in Philadelphia, PA by Earl A. Pace, Jr. and the late David Wimberly. The association’s co-founders cited a lack of minorities in middle and upper management, low recruitment in underserved communities, and very poor preparation of minorities for new “data processing” and tech positions, resulting in an overall lack of career mobility known by many today as the “Digital Divide”. Today, BDPA’s mission partners, new BDPA Members, National BDPA High School Computer Competition (HSCC) alumni, and tech industry stakeholders have increased their participation and investments with BDPA. This is accomplished by developing new talent acquisition strategies while improving tech-inclusion thrusts with local BDPA Chapters and regional outreach engagements. This year’s summit theme is “***Innovation evolves, once shared.***” Join or partner with us to discover more — bdpadc.org
