Zoom Selects Oracle as a Cloud Infrastructure Provider for Its Core Online Meeting Service

Redwood Shores, Calif.— Oracle announced this week that Zoom Video Communications, Inc. is turning to Oracle Cloud Infrastructure to support its growth and evolving business needs as the enterprise video communications company continues to innovate and provide an essential service to its extensive customer base.

To meet rapidly increasing demand for its services, including a sudden spike to 300 million daily meeting participants, Zoom needed additional cloud capacity immediately. Zoom selected Oracle Cloud Infrastructure for its advantages in performance, scalability, reliability and superior cloud security. Within hours of deployment, Oracle Cloud Infrastructure supported hundreds of thousands of concurrent Zoom meeting participants.

MMTC Meets with FCC Advisory Committee on Diversity and Digital Empowerment

WASHINGTON (MMTC) — On April 28th, Multicultural Media, Telecom and Internet Council (MMTC) participated in the FCC Advisory Committee on Diversity and Digital Empowerment’s (ACDDE) virtual meeting. The ACDDE meeting featured a report from each of the working groups. Each Working Group proposed strategic changes in their work plans to reflect COVID-19’s impact on future operations.

- The Access to Capital Working Group’s report focused on its ongoing examination of ways to improve access to capital in order to encourage management and ownership of broadcast properties by a diverse range of voices, including minorities and women.

- The Digital Empowerment and Inclusion Working Group’s report discussed its work assessing access, adoption, and use of broadband and new technologies by under-resourced communities.

- The Diversity in the Tech Sector Working Group’s report addressed its progress in examining issues pertaining to hiring, promotion and retention of women and minorities in tech industries.
