Small Businesses Are Providing New Solutions For Air National Guard

Columbia, SC — The Booker DiMaio and 169th Fighter Wing teams had a great discovery session with the Air National Guard this past weekend in Columbia, SC.

The team made great headway in understanding user requirements for Unit Level Intelligence Systems, which Booker DiMaio is modernizing for the United States Air Force.

What a great group of folks and a wonderful opportunity to make a huge impact in their lives and the lives of the American people. **bt**

Jaguar Land Rover and BlackBerry Deepen Partnership for Next-Generation Intelligent Vehicles

WATERLOO, Ontario—BlackBerry Limited and Jaguar Land Rover (JLR) announced they have deepened their partnership in developing the automotive manufacturer's next generation vehicles. The collaboration between the companies has expanded to include:

- BlackBerry Artificial Intelligence and Machine Learning technologies for Automotive. Leveraging BlackBerry QNX and BlackBerry Cylance, the companies are working on transforming vehicle safety across a range of capabilities, including predictive software maintenance and cybersecurity threat protection.
- BlackBerry QNX for Jaguar Land Rover's next-generation vehicle architecture. Integrating BlackBerry software establishes the overall safety of Jaguar Land Rover's next-generation vehicle architecture, for the best-in-class product its customers expect.
- BlackBerry Cybersecurity Consulting. Consisting of BlackBerry consultants and security testing technology, BlackBerry Cybersecurity Consulting services identify security vulnerabilities in connected and autonomous vehicles, across the full software library used in a vehicle.

Prof Sir Ralf D Speth KBE FREng, Chief Executive Officer of Jaguar Land Rover, will deliver a keynote address during BlackBerry's annual flagship security conference next month in London, on October 2, 2019. This event is a forum for business leaders, technology developers, industry experts and market analysts to discover next-generation products and services that address the expanding secure communications needs of the connected world.
